

# **CBCCA INTERNATIONAL ARTS FESTIVAL**

**MAY 7, 2019 6-8 P.M.**

This is open to CBC homeschool students of all grades and their family as a family project. Students will get to research one country of their choice and pick out several elements of that country's culture such as missionaries our church supports in that country, customs and traditions, language, religion, form of government, food, clothing, national anthem of that country, etc.. Their will be no duplicate countries so each family will need to check with the festival team before doing their research to make sure the country they are interested in is not already taken.

The information will be compiled and typed or handwritten in report form. The report(s) will be attached onto a Science fair project display board with any visual arts, articles of missionaries, charts, illustrations, food samples, etc that will enhance the information about that country.

The student and their family will also need to prepare 60 passport pages using construction paper or other paper of their choice folded into four sections and NOT CUT apart with their country's name and flag on each section. These will be later cut apart and put into passport books by the festival team leadership. These passports books will be handed out to visitor's on the night of the festival and they will have an opportunity to visit the table's and find the countries that are in their particular passport book. When they find the country in their book the page will be stamped by the student with a stamp or a sticker.

The student should be ready to share more in depth about information they are displaying with their visitor's. Also, a trivia question about the country displayed could be asked by the student to the visitor in order for the passport page to get stamped. The stamper or stickers are to be provided by the student. Families can even dress in the appropriate fashion associated with their country.

Get creative and have fun!

**Needed from the student three weeks before the festival:**

60 Passport pages

**Needed from the student on the night of the festival:**

Need to arrive by 5:30 to set up table

Science Project Display Board with all information attached and visuals, decor, etc.

Stamp or stickers for the passport pages

Food samples that pertain to that particular country (this is optional)

Utensils to put the food samples on if food is given out at their table

National anthem music and device to play their music

Clean up afterward of the student's table area

Plan now for your family to participate in this fun family evening!
