

CBCCA Alternate Education Plan

Students with physical or mental disabilities may face academic challenges for a variety of reasons. CBCCA has developed a plan to come alongside parents and offer support for students with identified disabilities. CBCCA offers an Alternate Education Plan to identify accommodations for testing and interventions for parents to use in daily classwork.

Parents of students with documented disabilities will meet with the CBCCA Academic Advisor to develop the Alternate Education Plan. Plans will be reviewed and updated annually.

The Alternate Education Plan team will consist of the Academic Advisor, the parent, and the student in 8th grade and above.
